

Aluminium French door with ALU axxent PLUS 170 kg

ALU axxent PLUS 170 kg

- A high load-bearing capacity of up to 170 kg without additional load-bearing rods for consistently safe use
- Fully concealed pivots and hardware components for a perfect window design and room concepts oriented to design
- Upgrade the standard version to 170 kg with just a few additional parts
- Large opening angle in the turning position
- Non-corrosive materials ensure sustainably beautiful and resistant surfaces

Production benefits

- Quick and easy assembly: small number of clampable compact components with a high degree of pre-assembly for simpler installation
- Can be used for minimalist profile contours with a frame clearance of at least 10 mm and a hinge clearance of at least 3.5 mm
- 3D adjustability for compensating production and assembly tolerances
