

## Aluminium French door with ALU axxent PLUS as a narrow turn-and-tilt element

### ALU axxent PLUS narrow turn-and-tilt windows

- Suitable for extremely narrow turn-and-tilt or tilt-before-turn (TBT) sashes measuring 380 mm or more
- Fully concealed hinges: narrower profile views and larger glazed areas
- Load capacity of up to 130 kg for long-term, safe window operation
- Upgrade the standard version to 170 kg with just a few additional parts
- Large opening angle of 110° in the turning position
- Non-corrosive materials ensure sustainably beautiful and resistant surfaces

### Production benefits

- Quick and easy assembly: small number of clampable compact components with a high degree of pre-assembly for simpler installation
- Can be used for minimalist profile contours with a frame clearance of at least 10 mm and a hinge clearance of at least 3.5 mm
- Quick fabrication and assembly: continuous height and side adjustment, sash can also be installed on the building site
- 3D adjustability for compensating production and assembly tolerances
