## ALU axxent PLUS

- Fully concealed hinges: narrower profile views and larger glazed areas
- Load capacity of up to 100 kg for long-term, safe window operation
- Non-corrosive materials ensure sustainably beautiful and resistant surfaces

### Production benefits

- Quick and easy assembly: small number of clampable compact components with a high degree of pre-assembly for simpler installation
- Quick fabrication and assembly: continuous elevating adjustment, sash can also be installed on the building site

Environmental performance analysis\*

\* LCA available, please contact us at [nachhaltigkeit@siegenia.com](mailto:nachhaltigkeit@siegenia.com).

## DRIVE axxent DK

- Motorised locking, unlocking and tilting using push button or wirelessly
- Auto-lock function: when the window is pushed closed it locks automatically, meaning the handle can be dispensed with completely
- 10-minute automatic ventilation and whisper mode
- Optional WIFI module for operation using the SIEGENIA Comfort app
- Suitable for integration into the building control technology

### Production benefits

- Easy to install; can be adjusted even after installation
- No assembly work required for a cable transfer or an additional locking drive
- Optional test unit is available for simple setup
