

## AEROMAT flex HY 3F facade ventilator

### More information:

[AEROMAT flex product page](#)

### AEROMAT flex HY 3F with humidity control

- Passive ventilator with humidity control and 3-function switch, maximal or minimal ventilation
- Optimal, practically invisible integration in the facade: use in the existing installation space of windows or lift and slide elements
- Ventilation even when roller shutters or shades are closed
- No effect on the burglar resistance, sound absorption or watertightness of the window

### Installation benefits

- Installation horizontally above or vertically next to the element
- Quick and easy installation on site: flexible adaptation to profile depths of 70 to 125 mm due to telescopic duct
- Optional duct extension for profile depths up to 235 mm

### Technical specifications

- Dimensions, H x L x D: 38 x 500 x 39 mm
- Air throughput: 3–33 m<sup>3</sup>/h at 10 Pa
- Can also be used in pairs for increased air throughput
- Optional sound absorption modules: increased sound absorption up to 55 dB (depending on the duct length)
