

Aluminium door with AS 2600 GENIUS, IO module smart, motorised door drive and access control system

AS 2600 GENIUS

- Fast and quiet electronic locking and unlocking of all locking elements, including the deadbolt in the main lock
- Permanent locking monitoring and readiness for operation
- Future-proof SI-BUS technology with 128 Bit AES encryption
- Manual locking and release is possible at all times using the cylinder – even in the event of a power failure
- Optimum sealing thanks to a powerful gear motor: lower energy costs, protection against warping
- Easy to combine with the SIEGENIA access control systems: fingerprint scanner, keypad, transponder and many other applications

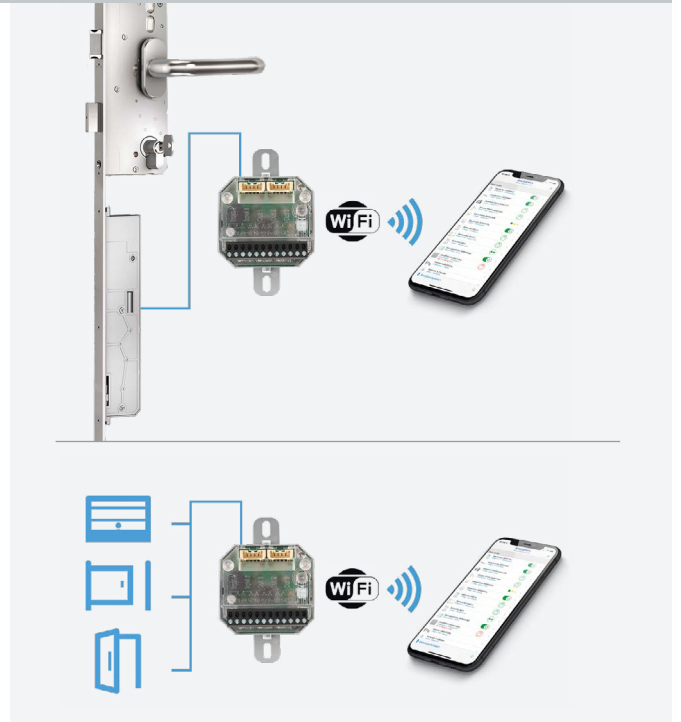

Production benefits

- Identical milling dimensions of main lock and secondary lock as in AS/BS multi-point locks
- Narrow installation width of just 16 mm and installation depth of as little as 52.5 mm
- Ultra-easy ordering, installation and setup due to optional plug & play solutions
- Menu navigation and status messaging when installed by means of coloured LEDs and/or via the SIEGENIA Comfort app

* LCA available, please contact us at nachhaltigkeit@siegenia.com.

Aluminium door with AS 2600 GENIUS, IO module smart, motorised door drive and access control system

IO module smart

- Optimum interface for connecting external products and applications with SIEGENIA devices and the SIEGENIA Comfort app
- Control and monitor GENIUS electromechanical multi-point locks and A-opener motor, as well as the DRIVE axent DK and DRIVE CL tilt-locking drives using the SIEGENIA Comfort app
- Operate third-party drives – such as garage door, roller shutter and motorised door drives – from the SIEGENIA Comfort app
- Intelligent status display
- Matter smart home standard in the pipeline

Production benefits

- SI BUS interface for digital, encrypted communication
- Two potential-free inputs
- Three potential-free outputs
- Compact design for on-wall or in-wall mounting
- Installation in standard cavity wall boxes and flush-mounted boxes

* LCA available, please contact us at nachhaltigkeit@siegenia.com.
