

PVC sliding door: PORTAL ECO SLIDE CO with SOFT STOP

PORTAL ECO SLIDE CO with SOFT STOP

- Choice of standard or design version
- Available in on-trend black
- Optional burglar resistance RC2
- Zero-maintenance bogie wheels, no visible lubrication
- SOFT STOP: gently brakes the sash before it reaches the end position

Production benefits

- For sashes weighing up to 200 kg
- With TITAN central locking gear: only a few additional components required
- Lean warehousing, efficient processes
- Small number of components for quick and easy assembly, simple hardware adjustments
