

## PVC sliding door: PORTAL PS 200 comfort with narrow tilt stay

### PORTAL PS 200 comfort with narrow tilt stay

- Intuitive ease of use due to additional comfort components
- Very quiet running motion and swings open and closed smoothly
- High level of basic security as standard, upgradeable up to RC2
- Also ideal for extremely narrow or deep-set sash profiles
- Tilt stay: new slim design

#### Production benefits

- Simplified assembly: bogie wheels with height and tilt adjustment
- Standard turn-and-tilt hardware can be used for the central locking gear
- Tilt stay: screwed either in the sash rebate or from the side for practical and time-saving installation
