TITAN for timber windows up to RC3 with TITAN timber hinge side

- Excellent burglar resistance and consistently effortless operation thanks to the sash lift roller and comfort mushroom cam
- New tilt-lock bearing with increased burglar resistance up to RC3
- Just one version for all sashes weighing up to 150 kg: identical frame clearance, no additional parts
- Sleek and modern design: flush with the rebate at the top and bottom, all screws concealed, caps and coating possible

Production benefits

- Efficient production: non-handed
- Quick and efficient production thanks to optimised double-well contour
- Fabrication on pre-weld profile is possible, fixings in-line

EPD*:

[Environmental Product Declaration – Turn-and-tilt hardware for windows](#)

* Environmental Product Declaration (EPD): a document that provides transparent information about the environmental impact of a product during its service life.

Smart sensor

- Secure: check locking status at any time with the app or using a voice assistant
- Invisible: integrated in the window frame
- Combinable: with heating, air conditioning, blinds, etc.
- Compatible: Matter smart home standard
- Simple: configure via a QR code

Installation benefits

- Works regardless of what hardware is in place
- Wireless installation without tools
- Battery-operated
- With optional white cover cap for surface-mounted installation
