TITAN axxent 24+ hinge side with up to 185 kg load transfer

- Fully concealed pivots for a perfect window design
- For turn-only and turn-and-tilt windows up to 185 kg
- Particularly wear-resistant and durable
- Continuous seal and integrated pressure adjustment for tighter sealing and increased thermal insulation
- Consistently high ease of use due to easy readjustment

Production benefits

- Sash is easy to fit in the slightly opened turn or tilt position
- Easy-to-access 3D adjustability: continuous pressure adjustment on the top and bottom pivot for optimal sealing

EPD*:

[Environmental Product Declaration – Turn-and-tilt hardware for windows](#)

* Environmental Product Declaration (EPD): a document that provides transparent information about the environmental impact of a product during its service life.

TITAN comfort stay

- Facilitates the operation of large and heavy sashes
- Reduces the amount of force required to close the sash from the tilt position due to integrated lift mechanism
- The window sash does not wobble when it is tilted open
- Bearing positions protected
- Also suitable for retrofitting on existing windows

Production benefits

- Minimum installation work
- Simple installation
- Minimal logistic complexity due to small number of components
