TITAN PVC hinge side

- For turn-only and turn-and-tilt windows with sashes weighing up to 150 kg with identical frame clearance and the highest durability class H3 with 20,000 cycles
- Sleek and modern design: flush with the rebate at the top and bottom, all screws concealed, caps and coating possible

Production benefits

- Optimised stay hinge: now even quicker and more intuitive coupling
- Optimised bottom hinge for faster production processes and convenient installation of the sash
- Identical drilling and screwing specifications for the bearings in all weight classes up to 150 kg

TITAN safety opening restrictor

- Limiting restrictor to ensure the safety of children
- Fulfils special child-safety requirements in accordance with EN 13126-5 Class 5/6
- Slim opening width <89 mm
- Two restrictors used per turning sash
- Integrated anti-slam device in ventilation position
- Authorised individuals can disengage the restrictor using the lockable handle with tilt-before-turn function (in 180° handle position)
- No additional, visible unlocking mechanism and therefore a superior, unspoiled window appearance
- Restrictors automatically engage again when the window is closed and the handle is turned to the locking position
